

Metrics

Report: Pending Cluster Ops

Chart: Pending Cluster Ops

Metric Name | Metric Description — | — manual repair tasks pending | gossip tasks pending | hinted handoff pending | internal responses pending | migrations pending | misc tasks pending | request responses pending |

Report: Compactions

Chart: Compactions

Metric Name | Metric Description — | — bytes compacted | compactions count |

Report: Pending Reads

Chart: Pending Reads

Metric Name | Metric Description — | — read requests pending | read repair tasks pending | compactions pending |

Report: Local Writes

Chart: Local Write Latency

Metric Name | Metric Description — | — write latency | avg. write latency |

Chart: Local Writes Count

Metric Name | Metric Description — | — writes count |

Report: Bloom Filter

Chart: Bloom Filter False Positives

Metric Name | Metric Description — | — false positives |

Chart: Bloom Filter Space Used

Metric Name | Metric Description — | — space used |

Chart: Bloom Filter False Positive Ratio

Metric Name | Metric Description — | — false positive ratio |

Report: Cluster

Chart: Cluster

Metric Name | Metric Description — | — ‘leaving nodes’ | ‘moving nodes’ |
‘joining nodes’ | ‘live nodes’ | ‘unreachable nodes’ |

Report: SSTable

Chart: SSTable

Metric Name | Metric Description — | — tables size | tables count |

Report: Local Writes

Chart: Local Read Latency

Metric Name | Metric Description — | — read latency | avg. read latency |

Chart: Local Reads Count

Metric Name | Metric Description — | — reads count |

Chart: Number of SSTables per read

Metric Name | Metric Description — | — reads count |

Report: Cache

Chart: Row Cache Requests

Metric Name | Metric Description — | — requests | hits |

Chart: Key Cache Hit Ratio

Metric Name | Metric Description — | — hits |

Chart: Key Cache Requests

Metric Name | Metric Description — | — requests | hits |

Chart: Row Cache Hit Ratio

Metric Name | Metric Description — | — hits |

Report: Pending Wrties

Chart: Pending Writes

Metric Name | Metric Description — | — flushes pending | post flushes pending
| write requests pending | repl. on write pending |

Report: Read Requests

Chart: Read Requests Latency

Metric Name | Metric Description — | — request latency | avg. request latency
|

Chart: Read Requests Count

Metric Name | Metric Description — | — requests count |

Report: Write Requests

Chart: Write Requests Count

Metric Name | Metric Description — | — requests count |

Chart: Write Requests Latency

Metric Name | Metric Description — | — request latency | avg. request latency
|
